### EMPLOYMENT HISTORY

#### Front-end Developer Intern ,SuizApp JUNE 2023 - OCT2023

#### TECHNICAL SKILLS

- Collaborated with a team of developers to create user-friendly interfaces for web applications.
- Implemented front-end frameworks such as ReactJS,next.js to enhance user interactions and improve overall user experience.
- Collaborated with the design team to translate wireframes and mockups into functional web pages.
- Actively participated in team meetings and brainstorming sessions, contributing ideas for improving the user interface and user experience.
- Stayed up-to-date with industry trends and emerging technologies, incorporating them into projects when appropriate.
- Successfully completed assigned tasks within deadlines, demonstrating strong time management and organizational skills.
- **Frontend Development:** Proficient in building modern, responsive web applications using Next.js, TypeScript, and React.
- **Next.js:** Experienced in leveraging the Next.js framework for server-side rendering (SSR), static site generation (SSG), and dynamic routing to create performant and SEO-friendly web applications.
- **TypeScript:** Strong understanding of TypeScript for writing type-safe and maintainable code, including defining interfaces, types, generics, and leveraging advanced TypeScript features.
- **React:** Extensive experience in developing user interfaces (UIs) with React, including component-based architecture, state management using hooks and context, and integration with third-party libraries and APIs.
- **State Management:** Proficient in managing application state using libraries like Redux, the React Context API, ensuring scalability and maintainability in complex frontend applications.

#### Front-end Developer , sim racing corner NOV 2023 - JAN 2024

#### Front-end Developer , salesline onshophq project MAR 2024

#### ONSHOPHQ

- worked on multi-tenant app
- Configure custom domains
- Secure API endpoints and handle sensitive data.
- Multi-Tenancy Concepts:
- Understand multi-tenancy architecture (shared vs. isolated databases, subdomains).
- Implement dynamic routing based on subdomains.
- Deployment and Hosting
- Deploy Next.js apps to platforms like Vercel
